

Road RockStar™

4-PORT PASSENGER CAR CHARGER

Charge your devices from the front or backseat at the same time.

Now you are no longer limited to only charging in the front seat during road trips. Designed with a 6-foot cable, the Road RockStar allows backseat passengers to fully charge their devices at the same time. Charge up to four devices combining smartphones and tablets as they optimally charge at up to 2.4 Amps. The back two USB ports can even charge two 2.4-Amp tablets at the same time for those long trips when watching movies.

BENEFITS:

Charge at optimal speeds

Provides optimal power to each port allowing for smartphones (1A) and tablets (2.4A)

Charge 4 devices at once

Two USB ports for driver and passenger, while 2 USB ports extend to the backseat passengers

Extend USB ports to the back

The 6 ft. cable allows for backseat passengers to easily access the charger

Compatible with most cars

Plugs into car's CLA and then clips to driver/passenger backseat pocket for easy accessibility to charging ports

Belkin Connected Equipment Warranty (CEW)

Connected equipment warranty provides consumers with the confidence that their device is protected for up to \$2,500 when properly connected
